OFFICIAL STATEMENT #4

ACTIVE ATLANTIC TROPICAL WAVE IS MOVING AWAY FROM THE LESSER ANTILLES

This is the last Official Statement to be issued on this particular tropical wave.

The Trinidad and Tobago Meteorological Service (TTMS) has been closely monitoring an active tropical wave which, overnight, crossed into the Caribbean Sea and is now moving westward, away from the Lesser Antilles. The wave still has a low chance of development (20%) over the next 48 hours.

The TTMS continues to closely monitor any related weather phenomena which may affect Trinidad and Tobago and will issue any warranted alerts in a timely manner. As always, pay close attention to information being issued by the TTMS by visiting www.metoffice.gov.tt, downloading our mobile app (search: TT Met Office) and following us on Twitter, Facebook and Instagram.
