PUBLIC WARNING MESSAGE

Date:	2020/08/08	Issuance Time:	03:41 PM
Event:	Adverse Weather	Message Type:	Update
Headline:	ADVERSE WEATHER ALERT #2 - YELLOW LEVEL		
Area Description:	Trinidad and Tobago		
Start Date/Time:	2020/08/08 02:00 AM	End Date/Time:	2020/08/09 05:00 PM
Urgency:	Immediate	Response:	Monitor
Severity:	Moderate	Certainty:	Observed
Description:	<p>Although there is currently a lull in activity with significant improvement observed in most areas across Trinidad and Tobago, the Inter Tropical Convergence Zone (ITCZ) remains active over our area. Some additional rainfall is expected after midnight tonight and into the early parts of the morning, Sunday 9th August 2020. This will result in occasional heavy showers and thunderstorm activity in a few areas, both in Trinidad and Tobago. Gusty winds in excess of 50 km/h and street or flash flooding are likely in the vicinity of heavy showers and thunderstorms. Conditions are expected to become settled during the afternoon tomorrow, Sunday 9th August 2020.</p>		
Instructions:	<p>Monitor weather conditions before venturing outside. Monitor official updates. More information: www.odpm.gov.tt</p>
